Dear Client!

UralGRIT was founded in 1988 and nowadays it is a major manufacturer and supplier of high quality blast cleaning abrasives for surface preparation of metallic stone surfaces in Russia and CIS region.

We offer abrasive solutions for surface preparation of steel and metal, stone and concrete, for the shipbuilding and ship repair industry, oil, gas and petrochemical industry, facade cleaning, road construction and etc.

The company is much experienced in grit manufacturing and applying up-to-date surface treatment techniques. The main guidelines include strict quality control of meeting specific customer requirements.

UralGrit is not only a reliable supplier of efficient, high quality and low-cost blasting media, but it can also provide key-turn service to its customers.

The blasting media manufactured by UralGRIT brings no harm to people and environment. The product meets the most rigid health and ecological standards.

All manufactured media produced for compliance with ISO 11126-3 Preparation of Steel Substrates before Application of Paints and Related Products.

We are ready to discuss these prices for our products with you to make a cooperation mutually beneficial and enduring.

Please, do not hesitate to contact us, we would be glad to ask you questions.

In the meantime, you may wish to visit our website www.uralgrit.com for more details.

Best regards,

Nadejda Perevatova
CEO
